## HANSLOPE PARISH COUNCIL – MUGA TENDER EVALUATION

| Tender Specifications PLAY INNOVATION   | Max   | <b>Actual Score</b> | Evaluators            |
|---|-------|---------------------|-----------------------|
|   | Score | (aggregated)        | Comments              |
| Storage Facility                        | 10    | 7.5                 | Tender States - that  |
|   |       |                     | shed will be          |
|   |       |                     | constructed to        |
|   |       |                     | match existing – but  |
|   |       |                     | could not find        |
|   |       |                     | details although      |
|   |       |                     | they were referred    |
|   |       |                     | to as being in an     |
|   |       |                     | appendix?             |
| Surface                                 | 10    | 9                   |                       |
| Lighting                                | 10    | 8.5                 | Not clear if the      |
|   |       |                     | lighting had minimal  |
|   |       |                     | impact on the         |
|   |       |                     | surrounding           |
|   |       |                     | environment           |
| Drainage                                | 10    | 9.5                 |                       |
| Fencing                                 | 10    | 9.5                 |                       |
| Additional Facilities                   | 10    | 8.5                 | Good but In           |
|   |       |                     | catalogue seems to    |
|   |       |                     | have a choice of      |
|   |       |                     | eight types – need to |
|   |       |                     | review what would     |
|   |       |                     | be best for users     |
| Construction Considerations             | 10    | 10                  | Seem to meet all the  |
|   |       |                     | requirements          |
| Environmental Principles                | 10    | 9                   | Not sure if gates are |
|   |       |                     | in right position –   |
|   |       |                     | needs to be           |
|   |       |                     | reviewed              |
| Maintenance & Sinking Fund Expectations | 10    | 7                   |                       |
| Innovation                              | 10    | 7                   |                       |
| Total                                   | 100   | 85.5                |                       |
